St. Clair High School North side of 30	High School students ride elementary buses in the morning and are taken to STC at 7:30 am by Lonedell driver, Dawn Dierker. In the evening, they are picked up at STC by Tim Laturno (Pam Nunez) and then come to Lonedell R-14 where the Grandview driver takes students who live on the south side of the district home and Tim Laturno (Pam Nunez) drives students on north side home. All roads north and south are covered.
Grandview High School	We drive a route that picks up all Grandview students North and South of our district and drive them to Grandview. All roads are covered. In the afternoon, a Grandview driver brings them to campus. They meet the STC bus and then students switch according to the north and south of the district. The Grandview driver drives all the students on the south side home and Tim Laturno drives the north side home. The Grandview School District will bill us for this route. All roads north and south are covered.
ECSE /Specialized Transportation	This individualized route is determined by student need. It is a dynamic route and schedule that is ever-changing. The route is determined by administration and shared with BK Bus who ultimately designs the route. It varies day by day.
